DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 16 July 2007 has been entered.

(Previous) Claim Rejections - 35 USC § 102

2. The rejections of claims 1-8 under 35 U.S.C. 102(e) as being anticipated by Chaix (US 2004/0062967 A1) have been withdrawn in view of Applicants' Amendment.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed towards a fuel cell comprising:
an electrolyte electrode assembly including a pair of electrodes and an electrolyte interposed between said electrodes;
separators for sandwiching said electrolyte electrode assembly, a reactant gas supply passage and a reactant gas discharge passage extending through said separators in a stacking direction, at least one of said separators having a reactant gas flow field connected between said

Art Unit: 1745

reactant gas supply passage and said reactant gas discharge passage for supplying a reactant gas to one of said pair of electrodes;

a seal member provided around said one of said pair of electrodes for sealing said reactant gas flow field, said reactant gas supply passage, and said reactant gas discharge passage and

a filling seal partially provided at an outer region of said one of said pair of electrodes, said filling seal being provided tightly in contact with at least an outer end surface of said one of said pair of electrodes for preventing leakage of said reactant gas,

wherein the seal member and the filling seal contact the electrolyte.

The prior art references of record fail to teach or suggest, alone or in combination, what is instantly claimed, in particular, wherein the seal member and the filling seal contact the electrolyte.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
